SAT Anywhere instructions

Router settings

To set up a home router, first login to the router management page, then find the DMZ settings page as shown in Figure 1.

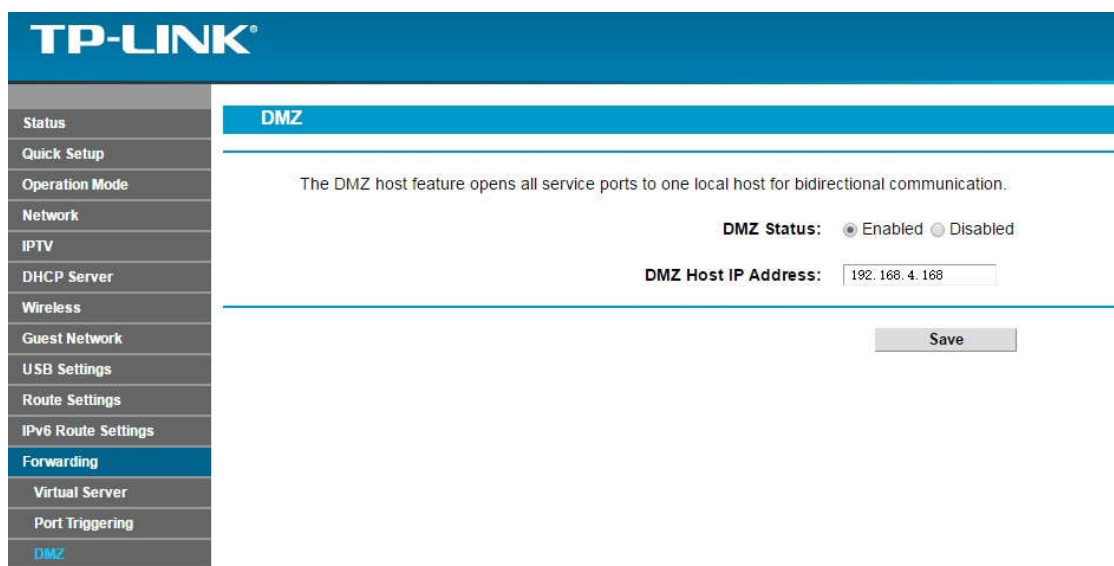

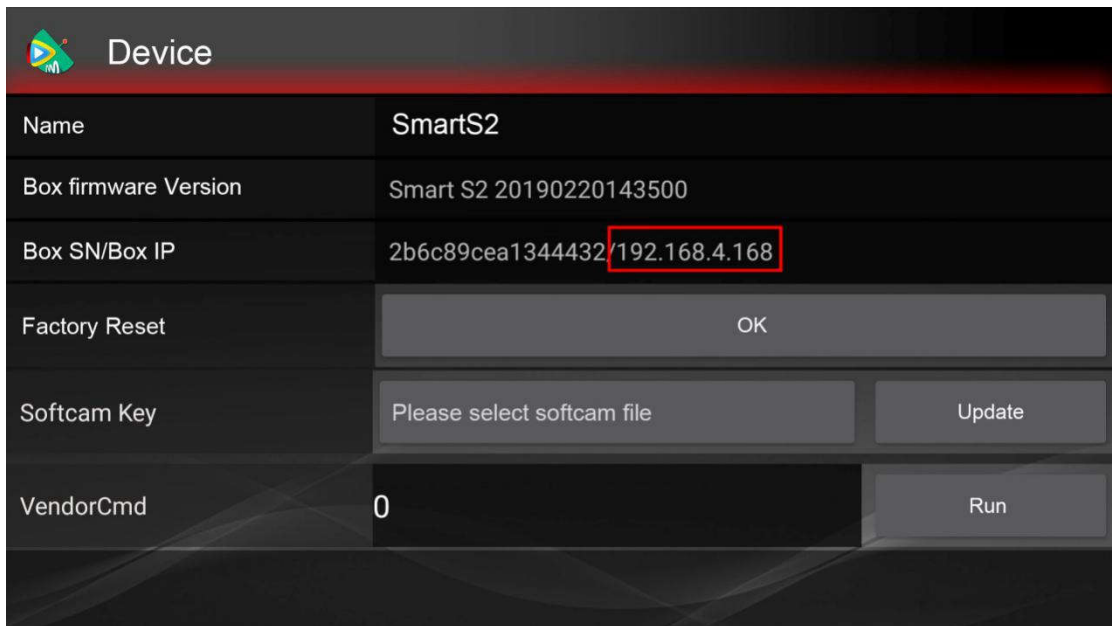

Figure 1

Enable DMZ function and set DMZ host IP to the address of your Smart S2 box. You can get the address of the box by DVBPlayer APP as shown in Figure 2.

Figure 2

APP settings

Click "SAT Anywhere" icon to enter SAT Anywhere menu.

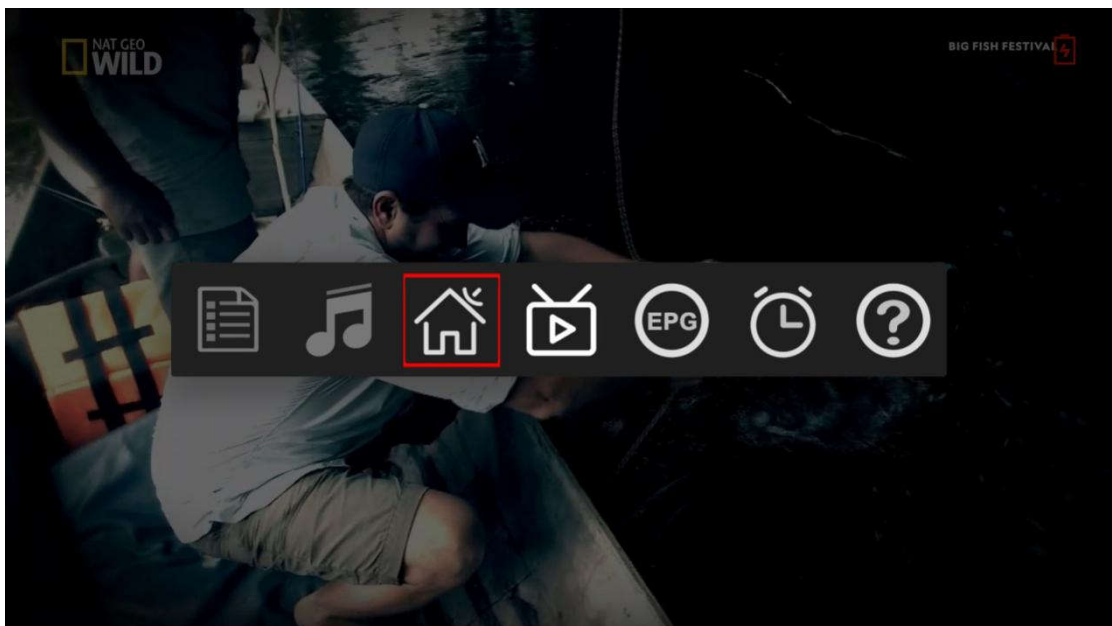

Figure 3

Your smart s2 box will be displayed on the first line with a "my" icon
  as shown in Figure 4.

Figure 4

When you are not at home, you can enjoy satellite programs over the
  Internet. Click on "connect" icon to connect the box in your home
 and play the program.

Figure 5

At the same time, you can also share your box with your friends
  anytime, anywhere. Click "share" icon and you will get a share code
 as shown in Figure 6 and Figure 7.

Figure 6

Figure 7

Share the code to your friends via instant messaging APP or other
means. Now your friend needs to open the APP, click on "get" icon
under SAT Anywhere menu, and enter the code as shown in Figure 8
and Figure 9.

Figure 8

Figure 9

That's all, now your friends can connect your box to enjoy the
program.

If you want to protect your box from being used by others, you can set a password for it. Click "Edit" icon and set the password as shown in Figures 10 and Figure 11.
